About This Game

Get A Whole New Lease On Life!

Do your best to die, or to save your enemies from death in this frantic multiplayer game about life and death. *Stayin' Alive* is a game about wheelchair-bound retirees (the *Suiciders*) who have decided it's high time to meet their maker, and nurses (the *Saviors*) who must keep the old geezers alive at all costs. Choose your side and let the dying/saving begin!

It's Check Out Time!

As a retiree, you will need to craft lethal weapons of self-destruction out of ordinary items and hide yourself while attempting suicide. But beware: Saviors are looking for you and they're determined to save you from certain death.

Life Is *Precious!*

As a Savior, your job is keeping the Suiciders alive by finding the correct life-saving tool for any situation and using that on whoever is dying. Sedate the old-timers and conduct them into containment rooms to prevent suicide and instantly earn your score.

Power-up your job

Look well around and find incredible items to either get special abilities if you are playing as a Savior, or instantly kill yourself

if you are playing as a Suicider. Magic potions, teleport devices, a barrel of fireworks, a blow up doll...

Every match lasts a few minutes and fast thinking is everything. Any time a Suicider dies or is confined, points are assigned determining the winning party at the end of the match. Play in a small retirement house in South America, a big hospital or even a forest, in up to 8 vs. 8 matches!

Will you take or save lives in the first ever FPSS (First Person Saver/Suicider)?
